Microsoft Academy of College Hires (MACH) - Technical

Wanna become part of Microsoft Greece?

If you are interested in pursuing our Services, IT or Developer Platform Evangelism positions, you stand a chance to build upon your technical acumen with expert technologists and gain skills in effective communications to help our customers and partners realize the brilliance of IT.

With over 3,000 MACH employees in over 60 countries worldwide, you'll gain a network to a global community of peers, leadership exposure, world class marketing trainings and the opportunity to take on challenging work that contributes meaningfully to helping people and businesses realize their full potential.

We offer:

- Full time position in real business jobs in a Technical or Technical Sales area that suits your qualification and interest,
- Career development support,
- A strong peer and career 18 months mentor program,
- Inspiring worldwide meetings, interact with peers in workshops and trainings, and leverage technology to foster your global community,
- Cooperation with the finest in the business,
- Opportunities to travel and enjoy experiences planned exclusively for MACH participants (recent MACH trainings have taken place in Atlanta, Singapore, Korea, and throughout Europe),
- Tools and knowledge to steer your long term career in IT or Services,
- On-going In-depth training with current and emerging products and technologies,
- Compensation: Competitive salary package

You will need to have:

- Bsc or Msc level IT or technical studies – graduated in 2014
- Passion for technology, some knowledge in one of Microsoft technologies is an advantage

- Tough skinned; shows no fear in the face of challenges; is someone who doesn't take things personally
- Excellent communication and presentation skills
- Collaborative but as well able to work independently
- Fluent in English and Greek language
- Previous internship in IT industry or technical area is an advantage

The Microsoft Academy for College Hires (MACH) is as an accelerated career development program designed to recruit and hire top-performing graduates across a broad range of roles, and aims to cultivate your talent utilizing training, mentoring, and community support.

MACH participants are hired based on potential and are provided with a comprehensive on-boarding curriculum, enabling them to accelerate their careers and become part of the next generation of key contributors and leaders.

Unlike in other programs, MACHs will be immediately placed in a challenging role with specific learning roadmaps. They will be provided with the infrastructure and resources to define and grow you career including access to world-class learning solutions both online and in live classrooms. We have customized experiences to help them start strong at Microsoft, build your global network, and drive your career. Our two year program is focused on providing you professional development early to help you make an impact in role and to ensure that they have the tools and knowledge to help your long term career.
