With over 16 years dedicated to IT security, my credentials are bolstered by a Doctorate from the University of Piraeus and a significant consultancy role in cybersecurity at TRUST Information Technologies. Academically, I serve in part-time faculty roles and am the visionary behind Ethihak, a pioneering ethical hacking contest.

Professional Experience:
- Lead IT Security Assessments, focusing on the specific security requirements of each project.
- Act as Chief Information Security Officer (CISO) for clients.
- Manage, implement, and maintain Information Security Management Systems (ISMS).
- Drive proactive security measures to prevent potential breaches, thereby averting potential data or financial losses.
- Offer security training to boost organizational awareness and understanding of security measures.
- Oversee project scopes with precision and commitment, adhering to SLA directives.
- Implement a holistic cybersecurity approach, covering technical needs, processes, procedures, and training initiatives.
- Lead projects across various sectors, demonstrating adaptability and expertise.

Academic Experience:
- Part-Time Faculty
- Doctor of Philosophy (Ph.D.) in IT Security from University of Piraeus

Initiatives:
- Founder of Ethihak, an innovative ethical hacking contest.

Publications:
- "A compliant and secure IT infrastructure for the National Library of Greece in consideration of internet security and GDPR", Qualitative and Quantitative Methods in Libraries, 2020, 9(2), pp. 219–236.
- "Compliant and secure websites for the Greek Libraries Network of the National Library of Greece", Quantitative Methods in Libraries, 2020, 9(3), pp. 377–395.
- "Text and Data Mining for the National Library of Greece considering Internet Security and GDPR", Quantitative Methods in Libraries, 2020, 9(3), pp. 441–460.

Certifications:
- LEAD AUDITOR ISO CERTIFICATION ISO 27001, Alcumus ISOQAR Ltd.
- CERTIFIED ETHICAL HACKER, EC-Council
